Forecast for Wednesday 21 Sep 2022

Weather: Mainly dry overnight with the odd spot of light rain in the south and west. A lot of dry weather on Wednesday with best of the sunny spells over the northern Cairngorms but cloudier in the west. Outbreaks of rain will spread eastwards during the evening, becoming heavy later in the west. Windy conditions on the tops.

Chance of cloud-free hill tops above 800m: 80%, becoming 20% through evening.

Low cloud and visibility: Mainly good visibility with just a few patches of cloud and fog above 800 or 900m, mostly in the west. More extensive cloud and fog developing above 600m through the evening.

Met Office Aberdeen Meteorologist's View

A rather windy day on the tops with gales picking up across the Munro summits and high plateau areas during the evening.

Forecast for Thursday 22 Sep 2022

Weather: Rain overnight and through Thursday morning, heavy at times. Dry conditions with sunny spells and isolated reaching the west of the area around late morning then other ranges during the afternoon. There is considerable uncertainty in the timing of this improvement.

Maximum wind: Southerly 30-35mph with gusts 50mph overnight and early morning, easing to Westerly 10-15mph during the afternoon.

Chance of cloud-free hill tops above 800m: 20% overnight and during morning but becoming 90% in afternoon once rain clears.

Low cloud and visibility: Very poor in the morning with cloud above 600m and spells of rain. A marked improvement once rain clears in afternoon with cloud clearing and excellent visibility developing across all ranges.

Temperature: **Glens:** 12C rising to 15 or 16C.
At 800m: Plus 9 or 10C, falling to 6C in evening.
Freezing level: Above summits.
